

Mrs. T. C. Hornby is home from her visit in the East.

Dan Barnes was in town today from Cody and went out to see the foot ball game.

W. H. Caton was down from Rosebud spending Thanksgiving with his family at Judge Towne's.

Don't miss hearing Peterson Sisters and Sidney Landon at the M. E. church Saturday evening, Nov. 26. Tickets on sale at Elliott's drug store.

The Presbyterian ladies will have their annual supper and bazaar Tuesday evening, Dec. 6, 1904. Many useful and fancy articles will be for sale. Supper will be served from five to eight o'clock.

Don't forget the entertainment of the Peterson Sisters, Saturday night, Sidney Landon, who is with this company, is said to be a royal entertainer in different dialects. Get your tickets early as there will be a crowded house. Tickets at Elliott's drug store or at the door. M. E. church Saturday evening, Nov. 26, 1904.

The U. S. Weather Bureau report for the week ending No. 24th show the highest and lowest temperature to have been 75° on the 18th and 22° on the 24th. The mean or average for the week was 43.8°. There was no precipitation. The winds were generally from the northerly points and the highest velocity was 24 miles per hour from the northwest on the 19.

The people of Russia have begun asking that they be allowed representation in the Russian government. Mass meetings are creating more interest at the present time than the war in the East. It seems that the uprising is generally now that the feeling for representation has become manifest with the people who will probably insist upon a House of Commons, similar to the government of England. Failing in that, revolution may follow in which Russia may become a republic.

O'Neill 10 - Valentine 0.

The foot ball game between O'Neill and Valentine today was closely contested in the first half, neither side making a point, though the O'Neill boys seemed to have the best of it when time was called. Several good plays were made by our boys which made rapid set backs and checked the onward movement of the O'Neill team which seemed the stronger combination and worked their way little by little. In the last half of the game the O'Neill boys made some good runs with the ball and though hotly contested they finally made a long side run and made a touch down but failed to kick goal. In the next play O'Neill had been making some rapid advances and was near goal when one of Valentine dropped the ball it was punted back past the center. It was picked up by O'Neill but was almost immediately blocked. Finally O'Neill made a good run and kept clear until he reached goal. They failed to kick goal again and time was called before the next play resulted in a touch down. The score was 10 to 0 in favor of O'Neill.

It was a good game and several hundred people were out to see it. The wind blew from the north and it was chilly, but it was Thanksgiving day and the people enjoyed the outing.

NOTES ON THE GAME.

Hornby on Davenport made a good stop once when O'Neill had the ball and was running for goal.

Byron Shaw made several stops and seemed to be right in O'Neill's way when they wanted to make a long run.

Several on both sides distinguished themselves as a strong defense. O'Neill team played a strong game. One fellow had a habit during each skirmish of reaching over another fellow and pulling one of Valentine forward to goal, thus making the run. O'Neill had some good runs which managed to get hold of

the ball whenever the way was clear.

Wallace McDonald made several good foul tackles during the game.

P. H. Young was one of Valentine's players in the last half and it is safe to say that O'Neill never broke through within his reach.

It was said to be a good game and little, if any, foul play. It was skill, strength, practice and activity matched against our boys and they lost the game through no faulty playing excepting lack of strength and practice.

Stinard-Bullis.

A beautiful wedding took place today (Thursday) at six o'clock p. m. at the home of Mr. and Mrs. David Stinard, between their youngest daughter, Miss Lucilla, and Mr. John Bullis, the youngest son of Mr. and Mrs. W. T. Bullis, also of this city. The Rev. Carpenter of the M. E. church, of which both the bride and groom were members, united the couple in a beautiful ring ceremony.

The bride was dressed in a gown of white crepe de chine and carried a bouquet of roses, and the groom was attired in conventional black.

Miss Ada Stinard played Mendelssohn's wedding march while the bride and groom, attended by Miss Myrtle Pettijohn and Mr. Fred Cumbow, marched into the dining room and under a bower of palms where the ceremony was performed in the presence of relatives and most intimate associates, after which a wedding luncheon was served. Many useful and valuable presents bestowed the esteem of their friends.

Mr. and Mrs. Bullis will go to house keeping in the home recently occupied by Mr. and Mrs. M. V. Nicholson on Cherry street, which had been prepared for their occupancy.

Mr. Bullis is a popular clerk in the hardware and undertaking department of the Red Front Mercantile company.

Miss Lucilla grew to womanhood in our city and has always been a useful member in society.

Both bride and groom are graduates of the twelfth grade in our city schools. They start in life with brightest prospects for a happy home and the kindly wishes of a host of friends.

THE VALENTINE DEMOCRAT joins with congratulations.

Now is the time to get your insurance on your buildings and stock. Storms have already begun and if you are without insurance it will be your neglect. It costs but a trifle to insure against fire, lightning and tornadoes in the best state companies. They are represented by I. M. Rice, Valentine, Nebr.

Home-seekers' Notice.

We publish a Home-seeker's Guide in the interest of those desiring good homes. Write today and receive a copy free.

ALL THE STATES AT THE WORLD'S FAIR.

Many Beautiful Pavilions and Pretentious Buildings Show Forth the Enterprise of American Commonwealths.

A beautiful city has grown up among the trees on the World's Fair grounds at St. Louis. It has nothing to do with the immense exhibit palaces, but is a thing apart. The houses in this new city are of various styles of architecture. Some are palatial in size and appearance, while others look merely cozy and inviting. Never before have so many notable and historic buildings been constructed in one group. This new city might be called the City of the States, for the houses included in it are the state buildings at the Fair.

The city is not compact, but somewhat straggling, as befits the picturesque view. Yet there is nothing suggestive of a Stringtown-on-the-Pike about this city, for the grounds surrounding each of the houses are beautified with gardens typical of the state represented.

All the states are to be represented at the World's Fair. This means a great deal, a shining triumph for the Louisiana Purchase Exposition, and furnishes another illustration of the fact that this Exposition's completeness is the marvel of the age.

Fifty-one states, territories and possessions of the United States have taken the steps necessary to participate in the World's Fair on an important scale. But two states were still outside the fold at the last report, and in each of these was a well defined movement in favor of being represented at the Fair with buildings and exhibits. New Hampshire, the old home state, and Delaware are the states referred to. In New Hampshire a fund for participation is being raised privately by patriotic citizens, so that in the event of legislative inaction this commonwealth may be represented.

The states and territories are expending over \$7,000,000 in their efforts to show off to best advantage at the Exposition. This is a million and a third more than was expended at the Chicago exposition by the states. In addition to this, large cities in many states will have municipal exhibits, the funds for which are not included in these figures. The municipal exhibit idea is entirely novel. From a number of the states there will be prominent county exhibits provided by special appropriation of county funds.

This City of the States presents a picture of surpassing beauty. Nature has done much to aid in the creation of the picture. Never before has any exposition been able to grant such advantages sites for state buildings. The buildings are situated on a plain about seventy-five feet higher than the level ground to the north upon which stand the main exhibit palaces. There are hills and ravines here and there, enabling the landscape to take on a most delightful pattern of roads and terraces and lawns.

The smallest of the state buildings is that of Arizona, which stands near the southeastern entrance to the grounds. One of the largest is that of Missouri, from the dome of which it is said that perhaps the very finest view of the Exposition may be enjoyed. This building is a palace in the Italian renaissance architecture, built at a cost of \$105,000. Near by is the reconstruction of the Cabildo at New Orleans, in which the Louisiana Purchase Exposition ceremonies took place. Louisiana's state building, Ohio has a clubhouse of highly ornate design, in the architecture of the French renaissance. Illinois is prominent with a most pretentious structure, with wide verandas and a commanding cupola.

A description of each of the state buildings with an detail well beyond than fill a newspaper page, is only possible here to hint at some of the interesting structures. California, for instance, has reproduced in exactness the famous old La Bodega, a building which Connecticut presents a reproduction of Sigourney residence at Hartford, and of the poetess Lydia Huntley Sigourney in her time. This building to be the finest specimen of colonial architecture now standing. The New Kentucky Home, from the Blue Grass State, is a handsome house that would make some of the mansions along Fifth avenue in New York city look insignificant. The Quaker, the quaint old house which Jefferson Davis owned and occupied many years, is reproduced by Mississippi. Its wide verandas or porches give it a most inviting appearance. Washington's headquarters at Morristown, N. J., are reproduced by New Jersey. Virginia contributes Mount Cello, the home of Thomas Jefferson.

The state of Washington contributes a structure of unique design. It is called the Wigwam, five stories high, built of wood from Washington forests. The building is octagonal with gigantic diagonal timbers rising from the ground and meeting in an apex forty feet in the air, above which is built an observatory from which a splendid view of the Exposition may be had. An elevator will carry visitors to the observatory.

New York, Pennsylvania, Ohio, Arkansas, Colorado, West Virginia, Indiana, Wisconsin, Texas and many other states are represented by buildings which cannot fail to arouse admiration. The Texas building is in the shape of a five pointed star, an appropriate idea for the big Lone Star State. Iowa has a magnificent mansion, with classic porticoes and a central tower containing an observatory chamber. Kansas, Indian Territory and Oklahoma each uphold the growing reputation of the southwest for enterprise and fertility of soil.

Everybody that writes **Can See Your Mistakes** don't occur so frequently and it is a guarantee to the public that you're a busy man. **THE DEMOCRAT,** Valentine, - Nebr.

High quality milk and cream delivered daily in any quantity. Give us a trial. 39 RED GATE DAIRY.

WEATHER AT WORLD'S FAIR.

Cool Nights and Delightful Indian Summer to Be Expected at St. Louis.

Usually the warmest month of the year, July proved to be one of the most pleasant of the World's Fair season, the average temperature being 67 degrees, a record lower than that made by either Boston, New York, Philadelphia, Cincinnati or Chicago. The weather bureau records show that the temperatures in St. Louis during July were just between the extremes recorded at New Orleans and St. Paul, cities located at great variance.

August in St. Louis is a month of cool nights, and September and October are the most delightful months of the year. It is that period known as Indian summer, when the foliage and birds linger to challenge the coming winter. Nowhere on the American continent is there a spot more delightful than the World's Fair city, a garden of blooming flowers and spraying fountains.

St. Louis, like all cities, experienced several hot days during July, but her highest temperature recorded was 93 degrees against 94 degrees registered by the thermometer at Chicago. On the same day the mercury rose to 86 degrees in Philadelphia, and scores of heat prostrations were reported from New York and Boston.

The relative humidity shows St. Louis to be about normal. Assuming absolutely no moisture in the atmosphere to be zero and absolute wetness to be 100, the relative humidities for July, taken from the records of more than twenty years, Boston shows 70.8, New York 72.2, Philadelphia 68.6, Cincinnati 64.6, Chicago 68.9 and St. Louis 68.3. The same degree of heat in two places, with different degrees of humidity would cause it to seem the better at the point of greater density.

St. Louis may therefore rightly claim to be a summer resort this summer, positively one of the most comfortable and delightful places on the map.

Official in charge Weather Bureau.

BLACK-DRAUGHT STOCK and POULTRY MEDICINE
Stock and poultry have few troubles which are not bowel and liver irregularities. Black-Draught Stock and Poultry Medicine is a bowel and liver remedy for stock. It puts the organs of digestion in a perfect condition. Prominent American breeders and farmers keep their herds and flocks healthy by giving them an occasional dose of Black-Draught Stock and Poultry Medicine in their food. Any stock raiser may buy a 25-cent half-pound air-tight can of this medicine from his dealer and keep his stock in vigorous health for weeks. Dealers generally keep Black-Draught Stock and Poultry Medicine. If yours does not, send 25 cents for a sample can to the manufacturers, The Chattanooga Medicine Co., Chattanooga, Tenn.

Professional Cards.
The Loup Valley Hereford Ranch, Brownlee, Nebr.
Prince Boubel, 13603 and Curly Coat 11231 at head of herd. The blood of Fonder, Anxiety, Lord Wilton and Sir Gladstone predominates to my herd.
Can fill orders for bulls of all ages at any time. Ranch four miles north-west of Brownlee, Nebr.
